14	Vocals 2	SM58	
15	Vocals 3	SM58	
16	2. E-Git Amp	SM57	optional
17	Cello	DI Box	optional

Sonstiges

We will bring our own stage design with us: a town's silhouette, made of illuminated wooden walls (movable). It's a shadow play which consists of several pieces, so the whole construction is very variable and can be reduced or extended depending on the club's size.

We also work with a diascope / dia projector on stage and bring our own 'screen'. There's not much technical complexity: Only a socket is needed. The band manages the dia projector itself.

Travel Party

- 5 Musicians
- 1 Tour Manager

Optional / on call (depends on distance und date):

- Cello
- 3rd Vocals
- Photographer
- Cameraman
